EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mardson McQuay on 29 April 2005.

2. The application has been amended as follows:

1) Claim 22, last line, -- not visible -- REPLACES, "invisible."

3. The following is an examiner's statement of reasons for allowance:

The closest references the Examiner was able to locate were:

a) Obrist et al. US 4,111,322. The reference teaches a threaded cap formed of a synthetic plastic material, with non-thermochromic printing ink on an outer layer thereof. The reference fails to teach the cap being formed of an admixed thermochromic material.

b) Russo US 2002/0167989. The reference teaches a lid for a coffee cup which may be formed of a thermochromic material. The reference fails to teach applying a non-thermochromic ink printing layer. No motivation was found to apply a printing ink layer which would be visible at a first temperature and not visible at a second temperature.

The Prior Art does not provide any motivation to modify these references to obviate the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
